New Plaza at the front entrance.

## The Louisville Clock moves to the Louisville Zoo!

The Louisville Clock will be moving to its new home at the front of the Louisville Zoo! With over 5 years of work coming to a close, the Clock is now ready to be brought back to life and run again for everyone's pleasure and enjoyment.

With the generosity of Integral Structures, Runner Turf and Landscape, Weber group and the Adam Matthews Foundation not only will the Clock be a key figure to the outside front entrance, the Zoo will also be receiving a new plaza for the front of the Zoo and for the Clock.

The new plaza will feature a beautiful stone style finish with landscaping, benches and a spectacular viewing area for the Clock. This new plaza will be the centerpiece for the Clock's new home and will beautify the Zoo with a public plaza for everyone to enjoy. The clock will be located along the front of the main entrance on the new plaza.

There will be no cost to see and enjoy the Clock as it will be outside the front entrance. The Clock will run its historic race at 12 noon for all to enjoy.
